(Registered as the N.P.O.  
of a Newspaper)

Passengers crowd the quay alongside the liner Australis early this morning while workmen sweated in the heat on board to repair electrical damage caused by a fire on Sunday.

A family from the Australis huddles on the quayside. There are hundreds of mothers and small children among the 1,800 passengers.

Two children tucked in for the night in deck chairs on board the disabled Australis. Port authorities allowed the children to be in the harbor for the night.
